

Plans for the coming year include: (1) For Women's Equality Day, OWI will furnish an information packet regarding the most pressing issues women face today, as a means of raising awareness and assisting women's organizations with press conferences for the day. And (2) there will be a concerted effort to update the Directory of Boards and Commissions, with \$500 set aside for a student to do the necessary research.

As we review these years, it seems like yesterday and yet a long time ago. So much as happened, so much still to be done, so much is the same, so much depends on us now. OWI is needed today as it was in 1977. We still do not have the Equal Rights Amendment and our reproductive freedom rights are threatened by State Government and federal courts.

Our Founders have done their best and they are still trying. Fortunately, feminists are especially long lived. They urge us on to do ever better. As was said on our Founding Day "use us well, use us well!"
