Image Filename: THINKING MUSICIAN'com (Oct 2014) re Committe of Ten (Standardizing American HS educ) on list of 102 Famous Musician (dropouts) - ScrnShot 2017-04-01 at 4.50PM.pdf

WHO WERE THE COMMITTEE OF TEN?

They were a group of college educators that, in 1892 established the American High School education system.

Their standardization would separate the college bound and working class students from the start. In other words this group created the grades K-12.

Original url: <http://thinkingmusician.com/102-famous-musicians-college-dropouts>

Their curriculum established how we think today as a society of automatons, brainwashed with the idea of: Go to school, get good grades, go to college, work for an employer for 40 years, retire and die.

The list includes Mozart, Charlie Parker, Irving Berlin, Barbara Streisand, Bob Dylan, Ringo Starr, Whitney Houston (Will Smith, more...)

Sorry, to be blunt. =)

Many working musicians today are also a victim of this insanity with mounds of debt. I'd like to state that God did not create us as slaves or automatons, but as free thinkers, and creators.
